

## Welcome to Park Hall Forest School

Laura and I would like you to feel part of our Forest Family! We aim to give the children in our care a unique Pre-School setting complete with authentic experiences with animals and in nature.

We feel that children excel in this environment faced with genuine challenges, true independence and opportunity to design their own learning - it is not just a different location but a whole different way of working that we are very proud of.

There will opportunities for Parents to get involved! We have signed everyone up to the Tapestry app where we will post photographs of the children's learning each week and also show how these activities satisfy criteria of the EYFS curriculum. There is opportunity for you to add your own photographs and observations of their learning to link home and Pre-School.

Each half term, we will send a Next Steps card to celebrate the children's achievements with us and gauge how you feel you would like them to make progress next. It is also an opportunity for you to suggest improvements to the setting - we are evolving all the time!

Once a term we have a gettogether with everyone invited - parents, grandparents, siblings, cousins and friends - to share the progress children have made (and cake!)

If ever you have any concerns at all you are encouraged to speak directly with Laura or I at the end of the session, call or text the Forest 'phone 07539 964719 or email [parkhallforestschool@outlook.com](mailto:parkhallforestschool@outlook.com).

In the event that we cannot satisfy your concern please contact Fiona Purslow, the Shropshire schools improvement officer on 01743 254314.
